

CWT connect enterprise

Customized and flexible travel management solutions

CWT Connect—Enterprise is a highly customizable package of travel management tools designed and administered by a team of CWT professionals dedicated to their client's needs. *CWT Connect—Enterprise* clients can choose a la carte from a suite of services such as online booking tools, reporting, and profile management.

A SINGLE POINT OF ACCESS

Through the *CWT Portal*, *CWT Connect—Enterprise* clients have a single point of access, designed by Web-site usability experts, to a full complement of powerful travel management services:

- Centralized communications with all travelers **increases visibility of travel program** and **creates cost savings** by improving policy compliance
- Flexible content management allows travel managers to **post news and documents** relevant to their corporate needs
- Travel content such as destination information, security alerts, maps and currency converters **improves productivity and allows informed decision-making** by streamlining the travel planning and booking process
- Single sign-on access to online travel applications **improves efficiency** in the travel planning and booking experience
- Online and offline travel booking options allow **maximum flexibility** for travelers and travel arrangers
- Superior online global reporting assists clients in **effectively tracking and managing travel expenditures**
- Exclusive CWT surveys, travel management guides, and CWT account management help **identify new savings opportunities**

HIGHLIGHTS:

- **Complete flexibility**—*CWT Connect—Enterprise* clients can customize the travel management package to meet their specific needs by choosing from a broad range of services—online booking tools, profile management, reporting—delivered through CWT's online travel portal
- **Online tools**—*CWT Connect—Enterprise* gives travelers online access to destination information, security information, maps, currency converters, and other helpful travel-related information in one easy-to-use site

CWT Connect—Enterprise offers maximum flexibility and customization to meet the needs of the most advanced travel management programs.

- **Offline options**—Offline booking options to meet the most complex and demanding needs of travelers
- **Powerful travel management tools**—online global reporting, a customizable travel portal, and CWT account management personnel help clients improve the management of their travel program to maximize value

FEATURES

CWT Connect—Enterprise has many features to assist companies in managing their travel programs and to add to the convenience of travelers and travel arrangers:

- **Single sign-on**—one password ensures easy login and access to multiple travel-related applications and information
- **Company travel news**—A convenient, effective way to communicate with travelers about travel program information, updates, and new policies in a central and highly visible location. News items are entered or uploaded through a simple, intuitive interface in near-real time and can be displayed in a choice of several languages:
 - Danish, Dutch, English (UK), English (US), French (CA), French (FR), German, Italian, Portuguese (Brazil), Spanish, Swedish
- **Customized company links and documents**—Corporate travel managers can provide links to or host important travel-related documents and/or services relevant to their company's travel needs—such as travel policy or maps of company locations.
- **Pre-trip services**—A comprehensive set of travel information tools including:
 - Airport maps and information
 - Business etiquette
 - City maps
 - Company and CWT-preferred hotels
 - Destination information
 - Flight & rail schedules
 - Security alerts
 - Visa requirements
- **Booking services**—Travelers and travel arrangers can access easy-to-use and cost-efficient online booking tools as well as offline booking options to offer maximum flexibility for the travel program
- **Post-trip services**—Link to company-approved expense reporting tools or traveler satisfaction surveys as part of the online travel management services provided through *CWT Connect—Enterprise*
- **General services**—additional helpful tools and information:
 - Currency converter
 - Global weather
 - World clock and meeting planner

BENEFITS:

CWT Connect—Enterprise offers many benefits for advanced corporate travel programs:

- **Cost savings**—Through improved communication and integration of travel policy parameters, *CWT Connect—Enterprise* clients can achieve cost savings by improving policy compliance
- **Time savings**—Busy travelers save time through one-stop, single sign-on access to all the information they need, efficient online booking, and profile maintenance; busy travel managers can access all the tools they need to manage their program and communicate to travelers through a convenient travel portal
- **Informed decision making**—travelers can make better, more informed business travel decisions by accessing company-specific and destination information online

***CWT Connect—Enterprise* delivers value to your corporation by customizing CWT's broad range of travel management solutions to your specific needs.**

- **Improved communication**—travel managers can customize information displayed on the travel portal access point to best meet their company—and their travelers'—needs
- **Enhanced flexibility**—Corporate travel managers can customize the services included in the *CWT Connect—Enterprise* package to best meet their needs; travelers can customize the content of the travel portal to fit their individual needs
