Dining and sleep improvements

Club World improvements are currently being rolled out across our global network.

You will be able to enjoy a better night's sleep with our stylish new bedding and amenity kit designed by The White Company, a renowned British luxury lifestyle brand.

You will also experience our new restaurant-style dining service onboard - new display trolleys allow you to select dishes from a choice of starters, desserts and cheeses, all served on beautiful new table settings.

The improvements will be available on all London Heathrow routes by late 2018 and on all London Gatwick routes by early 2019.

A feast for the senses

Inspired by some of the world's top chefs, the Club World menu combines irresistible local and international flavours to create a mouth-watering experience every time:

- feature-packed three-course meals to suit every taste, from hearty dishes to nutritious salads
- a thirst-quenching range of spirits, soft drinks and expertly sourced Old World and New World wines
- an array of indulgent treats and healthy options from our Club Kitchen that you can help yourself to, throughout the flight
- our brand new blend of [Union Hand-Roasted Coffee](#)

Entertainment at your fingertips

A whole world of entertainment awaits you with:

- hundreds of the latest films, documentaries, television, music, audio books and games
- personal 10.4in flat screen and noise-cancelling headphones
- on-demand service that lets you choose what you want, when you want it, on most flights

A world of calm and tranquillity

Relax and recharge your batteries before the flight in one of our elegant departures lounges stocked with fine wines and drinks, refreshments, newspapers, magazines, and comfy sofas.

We also provide a range of business facilities for when you need to work including free Wi-Fi at most major airports.

On arrival into London Heathrow Terminals 3 and 5, step off the plane and into the Arrivals lounge to freshen up and get ready for the day ahead. Facilities include more delicious dining options, showers and a clothes-pressing service.

Awaken your senses

Freshen up on-board with a luxury Elemis skincare products and accessories amenity kit.

Indulge in a luxury facial treatment or relaxing massage from acclaimed British spa and skincare brand Elemis when you fly through London Heathrow Terminals 3 and 5 and New York JFK Terminal 7.

Sleep for longer

Brush off the jetlag and maximise your sleep time on board with our Club World Sleeper Service, available on all Club World routes.

We'll welcome you on board with a night cap before turning down the lights and leaving you to a long and undisturbed rest in your fully flat bed. We'll serve you a quick breakfast before we land, giving you enough time to freshen up for the day ahead.

Your fast track through the airport

Patience may be a virtue but who really likes to wait? Cut through the queues with:

- your own dedicated Club World check-in desk at most airports
- Fast Track security at London Heathrow, London Gatwick and New York JFK
- Fast Track arrivals at London Heathrow for non-EU passport holders
- priority boarding

More bags than you can carry

With Club World you can travel as light - or as heavy - as you like, thanks to our ample [baggage allowance](#) which includes one cabin bag plus a laptop or handbag on board and up to two bags in the hold.

From your doorstep to your destination

Let AirPortr pick up your bags from your London location and check them in for your flight with the AirPortr + Bag Check-In service, exclusive to British Airways customers. Available for the wider London area and flights departing from Heathrow and Gatwick, except flights within the UK.

Aircraft variations

Wherever and whenever you fly Club World you can expect the same impeccable standards, access to exclusive lounges, top quality in-flight dining and premium service by our attentive crew, but a few of the cabin design elements may vary by aircraft.

On flights to and from Amman, Baku, Beirut, Cairo, and Tel Aviv, you may have a different style of flat bed providing an equivalent level of comfort to our standard Club World bed. The alternative design is fitted on our Airbus 321 aircraft operating on these routes.
